

SEAPEX, the Southeast Asia Exploration Society, is a non-profit professional organization, based and registered in Singapore. Its members, recruited worldwide, are geologists, geophysicists and other professionals involved in the Earth Sciences with particular emphasis on petroleum and natural gas exploration, development and production in Southeast Asia. Professionals from areas other than the Earth Sciences and related disciplines, with an interest in the “upstream” sector of the oil and gas industry are welcome to join SEAPEX as members.

SEAPEX holds meetings in Singapore in the afternoon of every second Friday of every second month (February, April, June, August, October, and December). These meetings consist of a social gathering and a 45-minute presentation on a topic related to the “upstream” sector of the oil and gas industry. Members and non-members are welcome to the SEAPEX meetings

SEAPEX meetings are held on the same day as the Singapore Scout Check Meeting, which currently attracts representatives from 98 oil and gas member companies operating in the region.

SEAPEX publishes and distributes to its members the quarterly bulletin, **the SEAPEX Press**.

SEAPEX has a Website, www.seapex.org, where members and non-members are kept informed of various society events and activities which includes news and meeting dates for the various overseas chapters which currently compromise Bangkok, Kuala Lumpur, Jakarta, Manila, Ho Chi Minh, Perth, Tokyo, London and Houston. Within the website is a Members Area which amongst other things provides an up to date listing of contact details for current members and access to various past SEAPEX publications and Conference Technical Papers.

SEAPEX hosts a bi-annual Conference and Exhibition in Singapore, the next being SEC 2019 to be held at the Fairmont from 3 to 5 April 2019. This popular event is expected to attract around 600 attendees.
